Achievements focused on improving the business environment

- Hiring of 210 new examiners;
- Regulation of Anvisa's prior consent for the granting of pharmaceutical patents, in joint INPI-Anvisa ordinance;
- Simplification of the procedure for registration of technology transfer contracts and franchises;
- Increased INPI productivity and reduced backlog; and
- Creation of a new electronic system of registry of computer programs.

Priorities for the year 2018

- Contribute to a business environment with greater legal certainty, transparency and stimulation of investments in the country;
- Improve operational performance and quality of services;
- Solve the backlog in a sustainable way;
- Reduce the examination periods, based on the performance of the main Industrial Property offices in the world;
- Prepare the INPI for the adhesion of Brazil to the Protocol of Madrid, concerning the international registration of marks; and
- Modernize INPI's technological infrastructure.
